# FUND MANAGER'S COMMENT

## Kraft High Yield

**Øivind Thorstensen**  
Portfolio manager

**Simen Aarsland Øgreid**  
Portfolio manager

***The fund delivered a return of -0.39 % in July and is up 8.30 % over the past 12 months.***

Activity in the Nordic high yield market was good during the first half of the month, but then slowed as the summer holidays got under way. Credit spreads narrowed marginally over the month.

Geopolitics continues to shape markets. The oil price rose more than 20 % as a result of the escalating and persistent unrest in the Middle East. The US and Iran have still not reached a lasting agreement, and traffic through the Strait of Hormuz remains restricted. The conflict has now spread to the Red Sea, where the Houthi movement is facing Saudi Arabia.

Despite the unrest, we are now operating in a more normalised market, where some sectors are priced highly and others more cheaply. Sectors that have long been expensive are gradually appearing cheaper, and this opens up new investment opportunities.

Changes to the portfolio during the month were primarily adjustments to existing positions. The largest were increased exposure to Intrum and reduced exposure to Neo Next+.

We will continue to exercise capital discipline and price risk appropriately, and the portfolio consists of solid companies on attractive terms.

At the end of the month, the fund had a weighted average yield of 8.06 %\* and a yield to maturity of 9.52 %.\*
